

# Singing in the Forest

**Join the Forest Singing Reunion, 10th May, 2024.**

On the occasion of the Day of Birds and Trees (10th May in Hungary), a forest singing reunion is organized by the Hungarian Gift of the Forest Foundation. Singing in the Forest is a heart-warming experience that connects people with nature and especially the song of birds among trees. May our gift to the forest be a heartfelt song, being thankful for the life-giving spring water, the clean air, and healing plants. Gift of the Forest Foundation intends to extend this tradition to as many countries in the world as possible and make this event worldwide.

Join the singing movement on Friday, May 10th, experience and feel the special power of singing among the woods, with the birds! At the central event on hill Normafa, Budapest, songs will be sung from many hundreds of throats and hearts at this time. Join from wherever you may be, alone or with family, friends, choirs, schoolmates etc, just sing your favourite songs or in a park, in the forest or to your favourite tree in your garden, botanic garden etc. Feel free to connect your singing with tree planting, garbage collection, bird watching, and any forest school programs that may fit in your daily activities.

Take a photo, or video of you, post on Facebook with hashtag **#forestsinging2024**, so we can find it and post it on <https://www.facebook.com/dalostalalkozo> site.

Zoltan Kodaly, the world-famous Hungarian composer, ethnomusicologist, pedagogue, linguist, and philosopher wrote: "Music is spiritual nourishment and cannot be replaced by anything else." We are convinced that the life force originating from the forest is exactly the same, it cannot be replaced by anything else. By the Singing in the Forest movement, we are fully connected to music and the forest with all our heart and soul.
